# GREAT CONDITIONS FOR WATERFOWL

Above-normal precipitation across the prairies of the United States and Canada should provide more birds for you to hunt this fall.

Every year, the U.S. Fish and Wildlife Service conducts pond counts and duck-pair counts in the same areas across the country.

This past spring, the pond count in the U.S. Prairie region was 100 percent above last year's count. The additional water provides favorable conditions for breeding waterfowl.

The duck-pair counts also showed increases for many species. Pintail numbers, for example, were 26 percent higher than last year and 10 percent above their long-term average. Despite these improvements, pintails still haven't reached their population objective, which is why harvest limits remain the same for the 2011–2012 season.

Overall, the outlook for Utah waterfowl hunters is very positive. You'll find water in many places that were dry last year, and the hunting should be great for most species.

## HIGHLIGHTS

### What's new this season?

**New fee for swan permit:** Starting this year, there will be a \$15 fee for each swan permit. For a complete list of license and permit fees, see page 5.

### Who makes the rules?

The Utah Wildlife Board passes the rules and laws summarized in this guidebook.

There are seven board members, and each serves a six-year term. Appointed by the governor, board members are not Division employees.

The Division's director serves as the board's executive secretary but does not have a vote on wildlife policies.

Before board members make changes to wildlife rules, they listen to recommendations from Division biologists. They also receive input from the public and various interest groups via the regional advisory council (RAC) process.

If you have feedback or suggestions for board members, you can find their contact information online at [wildlife.utah.gov](http://wildlife.utah.gov).

### Wildlife Board members

Jake Albrecht	Del Brady, <i>Chair</i>
John Bair	Ernie Perkins, <i>Vice Chair</i>
Calvin Crandall	James F. Karpowitz,
Bill Fenimore	<i>Division Director</i>
Michael King	<i>Executive Secretary</i>

**Season change for light geese:** In March 2012, there will be an earlier season for light geese outside of the North Goose Zone. The season will run from March 1–10, 2012. For a complete list of hunt dates and bag limits, see page 23.

### Also remember

#### You must register in the HIP every season:

You must obtain a Migratory Bird Harvest Information Program (HIP) number for the 2011–2012 season to hunt waterfowl in Utah this fall. Your number from last season won't work. The HIP number you obtain for the 2011–2012 season is valid from March 11, 2011 through March 10, 2012. Please see page 8 for more information.

**Buy your license over the phone:** You can now buy a Utah hunting or combination license over the telephone. Just call 1-800-221-0659. The line is staffed 24 hours a day, seven days a week. In addition to the fee for the license, you'll also be charged a \$2 transaction fee for each item you buy.

**Retrieving waterfowl:** Before hunting in an area, make sure you can retrieve the birds you shoot. Because of mud or deep water, you may need chest waders, a dog or a boat. Not attempting to retrieve your waterfowl could result in a citation.

**Swan reporting:** If you draw a 2011 swan permit, you are required to submit a harvest report. You must submit this information, even if you don't hunt or harvest a swan. Failure to complete a harvest report may affect your eligibility to apply for the 2012

## Take a closer look at the rules

This guidebook summarizes Utah's waterfowl hunting laws and rules. Although it is a convenient quick-reference document for Utah's waterfowl regulations, it is not an all-encompassing resource.

For an in-depth look at the state's waterfowl hunting laws and rules, visit [wildlife.utah.gov/rules](http://wildlife.utah.gov/rules).

You can use the references in the guidebook—such as Utah Code § 23-20-3 and Utah Administrative Rule R657-9-6—to search the Division's website for the detailed statute or rule that underpins the guidebook summary.

If you have questions about a particular rule, call or visit the nearest Division office.

swan hunting season. Please see page 12 for more information about this requirement.

**Off-highway vehicles:** Off-highway vehicles are not permitted on state waterfowl management areas, except in areas that are posted open to OHV use.

**Burning phragmites during the hunt:** This fall, as conditions permit, the Division will burn phragmites at both the Farmington Bay and Ogden Bay waterfowl management areas. To learn more, see the information box on page 7.

**Corrections:** If errors are found in this guidebook after it is printed, the Division will correct them in the electronic copy that is posted online. Visit [wildlife.utah.gov/guidebooks](http://wildlife.utah.gov/guidebooks) to view all of the Division's guidebooks and proclamations.

**Private lands:** The Division cannot guarantee access to any private land. If you plan to hunt—or engage in any other wildlife-related activities—on private land, you must obtain WRITTEN permission from the landowner or the landowner's authorized representative.

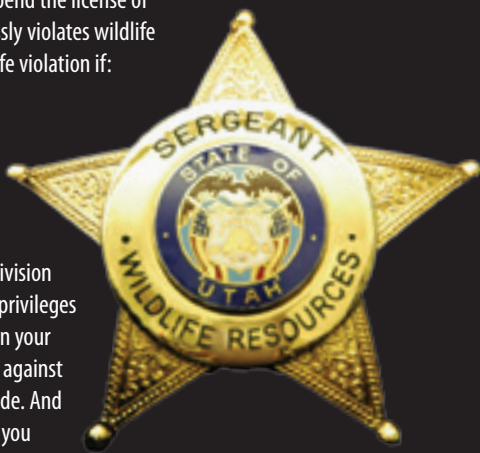

**Protection from discrimination:** The Division receives federal financial assistance from the U.S. Fish and Wildlife Service and must abide by federal laws. Under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Title IX of the Educa-

## Don't lose your hunting and fishing privileges

If you commit a wildlife violation, you could lose the privilege of hunting and fishing in Utah. The Utah Division of Wildlife Resources can suspend the license of anyone who knowingly, intentionally or recklessly violates wildlife laws. Your license can be suspended for a wildlife violation if:

- You are convicted.
- You plead guilty or no contest.
- You enter a plea in abeyance or diversion agreement.

Suspension proceedings are separate and independent from criminal prosecution. The Utah Division of Wildlife Resources may suspend your license privileges whether or not the court considers suspension in your criminal case. You will be notified of any action against your privilege after criminal proceedings conclude. And remember, if your license is suspended in Utah, you may not be permitted to hunt or fish in most other states. (Visit [ianrc.org](http://ianrc.org) to see a map of participating states.)

tion Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the basis of race, color, national origin, age, disability or sex. If you believe that you have been discriminated against in any program, activity or facility, or if you desire further information please write to:

The U.S. Fish and Wildlife Service  
Office for Diversity and Civil Rights Programs—

External Programs  
4040 North Fairfax Drive, Suite 130  
Arlington, VA 22203

**Division funding:** The Division is mostly funded by the sale of hunting and fishing licenses and through federal aid made possible by an excise tax on the sale of firearms and other hunting- and fishing-related equipment.

## FEES

### Resident license fees

Hunting license (under 14 years of age)*	\$11
Hunting license (14 years of age and older)*	\$26
Combination license*	\$30

### Nonresident license fees

3-day small game license	\$25
Hunting license*	\$65
Combination license*	\$80

### Other fees

Federal migratory bird hunting and conservation stamp (16 years of age and older). These are available at U.S. post offices and some license-agent locations.	\$15
Swan permit	\$15†

\* Hunting and combination licenses are valid for 365 days from the day you buy them.

† You will be charged an additional \$10 nonrefundable application fee.

## KEY DATES

### Season dates

Common snipe	Oct. 1–Jan. 14
Ducks, mergansers, coots	Oct. 1–Jan. 14
Scaup	Oct. 1–Dec. 24
Swan	Oct. 1–Dec. 11
Dark geese (inside the North Goose Zone)	Oct. 1–Jan. 14
Dark geese (outside the North Goose Zone)	Oct. 1–13, Oct. 29–Jan. 29
Light geese (inside the North Goose Zone)	Oct. 22–Jan. 14, Feb. 18–March 10
Light geese (outside the North Goose Zone)	Oct. 14–Jan. 14, March 1–10

### Swan application dates

Swan hunting application available online	Aug. 29, 2011
Application deadline	Sept. 7, 2011
Drawing results available	Sept. 19, 2011

## BASIC REQUIREMENTS

Completing hunter education, obtaining the proper hunting license and registering for a Migratory Bird Harvest Information Program (HIP) number are the first steps to hunting waterfowl in Utah. Depending on your age, you may also need a federal migratory bird hunting and conservation stamp. This section provides information about each of these items and how to obtain them.

### Are you old enough?

*Utah Code § 23-19-11*

Anyone who has passed a Division-approved hunter education course can hunt waterfowl in Utah, regardless of age. However, young hunters must be accompanied by an adult while in the field. To learn more, see the information box below.

#### Adults must accompany young hunters

*Utah Code § 23-20-20*

While hunting with any weapon, a person under 14 years old must be accompanied by his or her parent, legal guardian or other responsible person who is 21 years of age or older and who has been approved by the parent or guardian.

A person at least 14 years old and under 16 years old must be accompanied by a person 21 years of age or older while hunting with any weapon.

The Division encourages adults to be familiar with hunter education guidelines or to complete the hunter education course before accompanying youth into the field.

While in the field, the youth and the adult must remain close enough for the adult to see and provide verbal assistance to the young hunter. Using electronic devices, such as walkie-talkies or cell phones, does not meet this requirement.

### Have you passed hunter education?

*Utah Code § 23-19-11 and Utah Admin. Rule R657-23*

If you were born after Dec. 31, 1965, you must provide proof that you've passed a hunter education course approved by the Division before you can apply for or obtain a hunting license or a swan permit.

#### Proof of hunter education

You can prove that you've completed hunter education by obtaining a hunter education course Certificate of Completion (this certificate is called a "blue card" in Utah) or by using a hunting license from a previous year with your hunter education number noted on the license.

#### How to take hunter education

If you were born after 1965, you must take and successfully complete the state's hunter education course. It's an easy process:

1. Obtain a hunter education registration certificate. Each certificate costs only \$10, and you can obtain it online, at any Division office or from a license agent.
2. Register for a class with your local hunter education instructor.
3. Take your registration certificate to your instructor on the first night of class.
4. Successfully complete the course—your instructor will then validate your certificate. The validated certificate serves as your hunting license.

Both the registration certificate and the corresponding hunting license are valid for 365 days from the date of purchase. The license enables you to apply for or obtain permits in the Division's hunt drawings. In order to maximize your hunting opportunities, you should register for and complete

the hunter education course as soon as possible after purchasing your registration certificate.

After completing the course, you will receive your official hunter education card (commonly known as the “blue card”) by mail. It will be sent to the address listed on your registration certificate. This card certifies that you passed hunter education.

You should also keep the following in mind:

- Hunters under the age of 16 must be accompanied by an adult while hunting.
- Regardless of when a student graduates, all hunting regulations (such as season dates and bag limits) will apply.
- Students who are planning to hunt out of state should allow enough time for their hunter education card to arrive in the mail.

You can see a list of hunter education courses at [wildlife.utah.gov/huntereducation](http://wildlife.utah.gov/huntereducation). You can also contact your local Division office or call 801-538-4727.

## New to Utah?

If you become a Utah resident, and you’ve completed a hunter education course in another state, province or country, you must obtain a blue card before you can buy a resident hunting license or apply for a swan permit. You can obtain a Utah blue card at any Division office by providing proof that you’ve completed a hunter education course approved by the Division. The card costs \$10.

## Do you have a license?

*Utah Code § 23-19-1*

You must purchase either a hunting license or a combination license to hunt waterfowl in Utah.

Here’s the difference between the two licenses:

- A hunting license allows you to hunt small game, including waterfowl and upland game.
- A combination license allows you to fish and hunt small game in Utah. When you buy a combination license, you also get a price break compared to buying your hunting and fishing licenses separately.

To purchase a license, visit [wildlife.utah.gov](http://wildlife.utah.gov) or call 1-800-221-0659. You can also visit a license agent or any Division office.

## Burning phragmites during the hunt

Over the past six years, the Division has chemically treated and burned thousands of acres of phragmites (pronounced *frag-mite-ees*). This tall invasive plant outcompetes native marsh plants and eliminates waterfowl habitat.

In some cases, phragmites forms dense, impenetrable thickets up to 13 feet high.

This year, the Division plans to burn phragmites on both the Farmington Bay and Ogden Bay waterfowl management areas (WMAs), weather permitting. This may result in temporary closures of certain areas during the hunt.

Fortunately, waterfowl will flock to the burned areas a few weeks after the burn, and hunting should improve considerably.

The Division only receives authorization to burn when the weather, wind and air-quality conditions cooperate. As a result, the Division has about 12 hours’ notice before a burn occurs.

If conditions are right, the Division will lock the gates of the WMA the night before a proposed burn. The agency will also post signs at the WMA, work with the media and use a variety of online tools to alert hunters to the upcoming burn.

To read more about this fall’s phragmites burns or to check for an alert about an impending burn, visit [wildlife.utah.gov/burn](http://wildlife.utah.gov/burn).

To receive notice when a phragmites burn is approved, follow the Division on Twitter at [twitter.com/DWRburn](https://twitter.com/DWRburn).

You must carry your license with you while you’re hunting, and you cannot alter your license, or transfer or lend it to another person.

If you want to hunt a swan in Utah, you will also need to apply for and obtain a swan permit. For more information about swan permits, see page 9.

## Do you need a federal stamp?

*Utah Admin. Rule R657-9-3*

In addition to your hunting license, if you're 16 years old or older, you must obtain a federal migratory bird hunting and conservation stamp. This stamp is commonly referred to as a "duck stamp."

You can purchase a duck stamp from your local post office or by phone. The phone number is 1-800-782-6724. You can also call this number to order additional duck stamps. Duck stamps are not available at Division offices.

After you buy your stamp, you must validate it by signing your name in ink across the face of the stamp. You must also carry your stamp with you while you're hunting (most hunters place their stamp on the back of their hunting license).

If you're 15 years of age or younger, you do not need a federal duck stamp to hunt waterfowl, but if you turn 16 during the season, you must buy a stamp to hunt the remainder of the season.

## Do you have a HIP number?

*50 CFR 20.20 and Utah Admin. Rule R657-9-33*

In addition to your license (and your duck stamp, if required), you must obtain a Migratory Game Bird Harvest Information Program (HIP) registration number every season.

The number you obtained last season is not valid for this season.

HIP numbers for the 2011–2012 season are valid from March 11, 2011 through March 10, 2012.

## It's easy to register

You can obtain your Utah HIP number in one of two ways:

1. Register at [www.uthip.com](http://www.uthip.com).
2. Call 1-877-882-4744. If you have questions or need help obtaining your HIP number, please call 1-800-368-4683.

You'll need your hunting license to register, so make sure you have it with you before you log onto the website or call. It only takes about 10 minutes to register.

If your 365-day license expires during the season, and you buy a new license, simply write your 2011–2012 HIP registration number—and its expiration date—in the space provided on the front of your new license. You do not need to get a second HIP number for the 2011–2012 season.

## Email reminders

While registering at [www.uthip.com](http://www.uthip.com), you'll have the opportunity to provide your email address. If you do, you'll receive an email reminder to register for HIP before the next season begins.

## Valuable information

The U.S. Fish and Wildlife Service started the HIP in the mid-1990s. The program provides biologists with valuable information that helps them manage the nation's migratory game bird populations.

# SWAN HUNTING

Utah is one of the few places in the country where you have the opportunity to hunt swans. This section provides information about applying for a swan permit or preference point in 2011. You will also find information about what to do if you obtain a permit and harvest a swan. And finally, be sure to read the important reminder about when you can apply for the 2012 swan hunt.

## 2011 swan hunting

Before you can hunt swans in 2011, you must have the following items:

- A swan permit
- A Utah hunting or combination license
- A HIP number
- A federal duck stamp (if you are 16 years of age or older)

If your license expires before the swan season ends, you'll have to buy a new license to hunt the remainder of the season.

## Applying for a permit

*Utah Admin. Rule R657-62-23*

To hunt swan in Utah, you must draw a permit in the state's swan hunt drawing.

You can apply for the drawing online at [wildlife.utah.gov](http://wildlife.utah.gov) beginning on Aug. 29, 2011.

If you don't want to apply for a permit this year, but you want a better chance of drawing one next year, you can apply for a preference point instead.

However, before you can apply for either a swan permit or a preference point, you must first complete a one-time swan hunting orientation course. After you've taken the course, you don't have to take it

again as long as you follow the rules listed in the Harvest reporting section on page 12.

## Swan orientation course

The swan orientation course provides information about swans, including information that will help you identify tundra swans and trumpeter swans in flight. Both are legal to take, but the Division discourages you from shooting trumpeter swans. The course is available online at [www.utah-hunt.com/utswanacourse](http://www.utah-hunt.com/utswanacourse) and takes about 30 minutes to complete. Even if you don't plan on hunting swans, the Division encourages you to take the course.

## Key dates

*Utah Admin. Rule R657-62-23*

Please note the following dates if you want to apply for a 2011 swan permit or preference point.

## August 29: Apply online for a permit or preference point

Visit [wildlife.utah.gov](http://wildlife.utah.gov) to apply for a swan permit or preference point. Both residents and nonresidents may apply. Groups of up to four people may also apply. For more information, please see "Applying as a group" on page 11.

Application fees are charged to your credit or debit card when your application is processed. Your application can be rejected if your credit or debit card is invalid or refused. A permit fee is charged only if you are successful in drawing a permit. The fee for a swan permit is \$15.

You can use American Express, Discover, MasterCard and VISA credit or debit cards as payment, and they must be valid through November 2011. You can also use a pre-paid credit card. If you have questions about using a pre-paid credit card, check with your financial institution for more information.

## Swan permits for youth

*Utah Admin. Rule R657-62-23*

Fifteen percent of this year's swan hunting permits are reserved for hunters who will be 15 years of age or younger on Oct. 1, 2011 (the opening day of the hunt).

If you'll be 15 years of age or younger on Oct. 1, you can participate in the youth drawing by submitting an application as an individual hunter. You won't be included in the youth drawing if you apply as a member of a group.

## Avian diseases in Utah

Avian influenza and avian botulism are diseases that primarily affect wild bird populations.

Neither disease typically affects humans. However, there is a strain of avian influenza (known as Asian bird flu) that has affected some people. This strain has not been detected in Utah or anywhere else in North America.

In contrast, outbreaks of avian botulism (type C) occur in Utah annually. Although avian botulism typically affects only wild bird populations, some hunting dogs have been poisoned by contact with botulism-infected birds.

As long as you take some simple precautions, you can greatly reduce your risk of contracting avian influenza, avian botulism or any other wildlife disease:

- Do not harvest any bird that appears sick, and do not pick up diseased or dead birds.

- Do not allow dogs or other pets to handle sick or dead birds.
- Do not handle or eat sick birds.
- Keep your game birds cool, clean and dry.
- Wear rubber or disposable latex gloves while handling and cleaning your birds.
- After cleaning the birds, wash your hands with soap and water, and thoroughly clean all knives, equipment and surfaces that came in contact with the birds. You can disinfect these items by using a solution that's 90 percent water and 10 percent chlorine bleach.
- All birds should be cooked thoroughly (well done or at 160° F).
- Do not eat, drink or smoke while handling your birds.

For more information about avian diseases, please visit [wildlife.utah.gov/diseases](http://wildlife.utah.gov/diseases).

### September 7: Deadline for permit and preference point applications

Your application for a swan permit or preference point must be submitted through [wildlife.utah.gov](http://wildlife.utah.gov) no later than 11 p.m. on Sept. 7, 2011. If you need help with your online application, please call any Division office before 5 p.m. on Sept. 7, 2011. A Division employee will be available to help you!

### September 7: Deadline to resubmit an application

Did you make a mistake in your online permit application? Simply withdraw your original online application and submit a new, correct application before 11 p.m. on Sept. 7, 2011.

In order to withdraw your application, you must have the confirmation number from your original application. You must also have your customer ID and your date of birth. For each new application you submit, you will be charged a \$10 application fee.

If you need help with your online application, please call any Division office before 5 p.m. on Sept. 7, 2011.

### September 7: Deadline to withdraw an application

If you decide not to hunt swan, you can withdraw your online permit application until 11 p.m. on Sept. 7, 2011.

Please remember that any fees you submitted with your application are not refundable.

### September 19: Drawing results available

You'll be notified of the drawing results by email. Beginning Sept. 19, you can also learn the drawing results by calling 1-800-221-0659 or by visiting [wildlife.utah.gov](http://wildlife.utah.gov).

In order to protect your privacy—and to comply with governmental records access laws—you may obtain access to only your own drawing results.

If you draw a permit, you'll likely receive your permit in the mail by the end of September.

### September 29: Remaining permits available

Any permits remaining after the swan hunt drawing may be obtained beginning Sept. 29, 2011, at [wildlife.utah.gov](http://wildlife.utah.gov) and from license agents and Division offices. Remaining permits are available on a first-come, first-served basis.

## Did it get wet? Decontaminate it!

When you hunt waterfowl, some of your gear inevitably gets wet or muddy.

Your waders, clothes, shoes and other equipment provide good hiding places for microscopic invasive species or whirling disease spores.

Before you leave a hunting area and step into another water, rinse all the mud and other debris off of your waders, boots and wetted gear or equipment. Then, generously spray all of it—especially the felt soles of waders—with Formula 409 (a popular household cleaner). This treatment will kill any whirling disease spores.

After you return home, thoroughly clean and dry all of your gear before using it again.

For more information about decontamination, visit [wildlife.utah.gov/mussels](http://wildlife.utah.gov/mussels).

A preference point is awarded for each unsuccessful swan application.

An individual who does not want to hunt swan in the current year may apply for a preference point only by selecting the appropriate hunt choice code (SWN) on the application and paying the \$10 application fee.

If you are eligible for a swan permit, you are eligible to apply for a preference point. You cannot, however, apply for both a permit and a preference point in the same season.

A preference point will not be issued if you are successful in drawing a swan permit.

You will not lose your preference points if you obtain a permit that remains available after the swan drawing is over.

## How your preference points work in the drawing

In the drawing, swan applications are sorted into groups by the number of preference points—a 4-preference-point group, a 3-preference-point group and so on—from highest to lowest. Within each group of preference points, the applications are then sorted from lowest to highest draw numbers. Permits are awarded in order, based on the hunt choice selected.

Preference points are averaged and rounded down when two or more applicants apply as a group. For example, if hunter A with three preference points and hunter B with zero preference points apply as a group, the preference points are averaged (1.5) and rounded down to one. This process will determine in which group of preference points your application will be considered. Hunters with one preference point will be considered only after all groups or individuals with two or more preference points and before all groups or individuals with zero preference points.

You may surrender your swan permit before the season opens in order to reinstate your preference points, including a preference point for the current year (just as if you had not drawn a permit).

## Post-hunt requirements

If you hunt swan in 2011, be sure to meet the following requirements by Jan. 10, 2012.

## Applying as a group

*Utah Admin. Rule R657-62-23*

Instead of applying as an individual hunter, you and your friends and family can apply together as a group. Up to four hunters—including a mix of residents and nonresidents—can apply together for swan permits. (See the definition of a resident on page 44.)

Please remember that if you're a youth, and you want to be included among those who draw for the swan permits reserved for youth, you must apply as an individual hunter. Do NOT apply as part of a group.

When you apply, all fees for all applicants in your group must be charged to one credit or debit card. If your group is successful in the drawing, all of the applicants in your group who have valid applications will receive a permit.

## Preference points

*Utah Admin. Rule R657-62-10*

Preference points ensure that applicants who are unsuccessful—or those who choose to apply only for a preference point—will have a better chance of obtaining a permit in next year's swan drawing.

## Tag your swan

*Utah Code § 23-20-30 and Utah Admin. Rule R657-9-5*

After you've taken a swan, you must tag the swan before you move the carcass from or leave the site of the kill.

To tag a swan, completely detach the tag from your swan permit and completely remove the notches that correspond with the month and day the swan was taken. Then attach the tag to the carcass so the tag remains securely fastened and visible.

Your swan tag also includes a notch that indicates the sex of the bird, but you do not need to remove this notch; you only need to remove the notches that indicate when the bird was taken.

You may not remove more than one notch indicating the month or day the swan was taken, or tag more than one swan using the same tag. Also, you may not hunt or pursue swans after any of the notches have been removed from the tag or the tag has been detached from your permit.

## Get your swan examined

*Utah Admin. Rule R657-9-6*

You must bring the tagged swan or its head to a Division office—or the Bear River Migratory Bird Refuge office—within three days of harvesting the swan. A staff person will examine the swan's head and assist you in completing your swan questionnaire. This visit provides biologists with valuable information about swans in Utah.

## Harvest reporting

*Utah Admin. Rule R657-9-6*

If you obtain a swan permit, you must complete and submit a swan questionnaire by Jan. 10, 2012—**even if you don't end up hunting or harvesting an animal.** If you do harvest a swan, a Division biologist will complete your questionnaire as part of the post-harvest examination that is required of all successful swan hunters.

The questionnaire is available at [wildlife.utah.gov](http://wildlife.utah.gov). You can also complete it by calling 1-800-221-0659.

It's important to comply with the requirements listed above. If you miss the Jan. 10 deadline, you will be ineligible to apply for a 2012 swan permit unless you:

- Get the head of your harvested swan examined at a Division office

## Report your swan or risk permit cuts

Harvest reporting for swan is mandatory. In the 2010–2011 season, swan hunters returned their harvest reports in much higher numbers than in recent years. The Division appreciates these efforts and asks all swan hunters to make harvest reporting a priority during the 2011–2012 season.

If reporting compliance drops below 80 percent, the federal government will cut Utah's swan permits by 10 percent. That would mean 200 fewer permits.

To report your swan harvest, simply bring the tagged swan or its head to a Division office, or the Bear River Migratory Bird Refuge office, within three days of harvest. A Division or Refuge employee will help you complete your swan harvest report.

**Reporting is required, even if you did not hunt or harvest a swan.** Failure to return your harvest report could result in a citation and leave you ineligible to participate in next year's swan drawing. If you didn't harvest a swan, you can enter your report online or by calling toll-free 1-800-221-0659.

Don't be the hunter who jeopardizes 200 swan permits—please complete your harvest report as soon as possible.

- Complete and submit a late questionnaire
- Pay a \$50 late fee
- Complete the swan orientation course again

If you did not harvest a swan, you would only be required to complete the last three items before applying for your 2012 swan permit.

## Applying for a swan permit next year

*Utah Admin. Rules R657-62-23 and R657-42*

Applications for swan permits for the 2012 season will be accepted starting in early September 2012.

Mark your calendar today and remember to visit [wildlife.utah.gov](http://wildlife.utah.gov) at the start of September 2012 for the latest information.

## FIELD REQUIREMENTS

While hunting waterfowl in Utah, there are several requirements you must keep in mind to protect yourself and the resource. Please be familiar with the requirements for carrying and using shotguns, the different types of hunting methods you may use and what you're required to do with any waterfowl you harvest.

### Firearms and archery tackle

Several rules apply to the type of shotguns and archery tackle that may be used to take waterfowl in Utah.

#### Weapon requirements

*50 CFR 20.21 and Utah Admin. Rule R657-9-7*

You may take migratory game birds only with a shotgun that's no larger than 10 gauge or with archery tackle. (You may not take waterfowl with a crossbow, however.) Also, the shotgun you use cannot be capable of holding more than three shells (one in the chamber and two in the magazine).

Many shotguns can hold more than two shells in the magazine, but making these guns legal for waterfowl hunting is easy. An inexpensive item, called a "shotgun plug," comes with most shotguns or you can purchase one at most sporting goods stores.

#### Nontoxic shot and use of firearms and archery tackle

*50 CFR 20.21(j) and Utah Admin. Rules R657-9-8 and R657-9-9*

A shotgun with nontoxic shot is the only firearm and ammunition you may have in your possession while hunting waterfowl or coot in any area of the state. (To learn what nontoxic shot is, please see page 43 of this guide.) In addition, nontoxic shot is the only shot you may have in your possession while visiting or hunting any species of wildlife on federal refuges, the Scott M. Matheson wetland preserve, and the following waterfowl management areas:

- Box Elder County—Harold S. Crane, Locomotive Springs, Public Shooting Grounds and Salt Creek
- Daggett County—Brown's Park
- Davis County—Farmington Bay, Howard Slough and Ogden Bay
- Emery County—Desert Lake
- Juab County—Mills Meadow
- Millard County—Clear Lake and Topaz Slough

- Sanpete County—Manti Meadows
- Tooele County—Blue Lake and Timpie Springs
- Uintah County—Stewart Lake
- Utah County—Powell Slough
- Wayne County—Bicknell Bottoms
- Weber County—Ogden Bay and Harold S. Crane

You may not possess a firearm or archery tackle on any of the areas listed above any time of the year except during the specified waterfowl hunting seasons or as authorized by the Division.

#### Make sure you're in range

In the marsh, you should only shoot at birds that are within range. If you try to hit a bird that's too far away, there's a much greater chance the bird will be wounded or hard to find.

So, how do you know if you're in range? Before this year's waterfowl season opens, you can improve your ability to judge distance accurately with the following exercise:

- Find an area that's at least 50 yards long and place four regular-sized duck decoys 20, 30, 40 and 50 yards from your starting point.
- If you don't have four regular-sized decoys, use four pieces of cardboard cut 21 inches long by 4 inches high (the size of a medium-sized duck).
- After placing your targets, go back to your starting point, bring your unloaded shotgun to your shoulder and aim it at the target that's 20 yards away. Notice how big your barrel looks in relation to the size of the target. Then aim at the targets that are 30, 40 and 50 yards away.

Practice this process enough, and you'll know how birds should look when you view them over your barrel at different distances in the marsh.

## Are you allowed to possess a weapon?

Utah Code § 76-10-503

It is illegal under Utah Code § 76-10-503 to possess or use a firearm, muzzleloader, archery tackle or any other dangerous weapon if you:

- Have been convicted of or are under indictment for any felony offense;
- Are on probation or parole for a felony offense;
- Are on parole from a secure facility;
- Have been adjudicated delinquent (juvenile) in the last seven years of an offense that, if committed by an adult, would have been a felony;
- Are an unlawful user of a controlled substance;
- Have been found not guilty by reason of insanity for a felony offense;
- Have been found mentally incompetent to

stand trial for a felony offense;

- Have been adjudicated mentally defective as provided in the federal Brady Handgun Violence Prevention Act;
- Have been committed to a mental institution;
- Are an alien who is illegally in the United States;
- Have been dishonorably discharged from the armed forces; or
- Have renounced your United States citizenship.

The purchase or possession of any hunting license, permit, tag or certificate of registration from the Division does not authorize the holder to legally possess or use a firearm, muzzleloader, archery tackle or any other dangerous weapon while hunting if they are otherwise restricted from possessing these weapons under Utah Code § 76-10-503.

The firearm restrictions in this section do not apply to concealed firearm permit holders carrying a concealed weapon in accordance with Utah Code § 76-10-504. Visit [wildlife.utah.gov/rules](http://wildlife.utah.gov/rules) for more information.

## Loaded firearms in a vehicle

Utah Code §§§§ 76-10-502, 76-10-504, 76-10-505 & 76-10-523

You may not carry a loaded firearm in or on a vehicle unless you meet all of the following conditions:

- You own the vehicle or have permission from the vehicle's owner.
- The firearm is a handgun.
- You are 18 years of age or older.

A rifle or shotgun is considered to be loaded when there is an unexpended cartridge, shell or projectile in the firing position.

A muzzleloading firearm is considered loaded when it is capped or primed and has a powder charge and ball or shot in the barrel or cylinders.

The firearm restrictions in this section do not apply to concealed firearm permit holders carrying

a concealed weapon in accordance with Utah Code § 76-10-504, provided the person is not utilizing the concealed firearm to hunt or take wildlife.

## Areas where you can't discharge a firearm

Utah Code § 76-10-508

You may not discharge a dangerous weapon or firearm under any of the following circumstances:

- From a vehicle
- From, upon or across any highway
- At power lines or signs
- At railroad equipment or facilities, including any sign or signal
- Within Utah state park camp or picnic sites, overlooks, golf courses, boat ramps or developed beaches
- Without written permission from the owner or property manager, within 600 feet of:
  - A house, dwelling or any other building
  - Any structure in which a domestic animal is kept or fed, including a barn, poultry yard, corral, feeding pen or stockyard

## State parks

*Utah Admin. Rule R657-9-30 and R651-614*

Hunting any wildlife is prohibited within the boundaries of all state park areas, except those designated open to hunting by the Division of Parks and Recreation in Utah Admin. Rule R651-614-4.

In park areas that are designated open to hunting, you are not permitted to use shotguns or archery tackle within one-quarter mile of all park facilities, including buildings, camp or picnic sites, overlooks, golf courses, boat ramps and developed beaches.

In addition to the rules above, the Great Salt Lake Marina and posted areas adjacent to the marina are closed to hunting.

Waterfowl hunting, including the retrieval of downed birds, is also prohibited on all of Antelope Island except for the following areas:

- 100 yards beyond the existing shoreline from the Fielding Garr Ranch, proceeding around the north end of the island and then south to Elephant Head; and
- below the upland vegetation line of the island from the Fielding Garr Ranch, proceeding around the south end of the island and then north to Elephant Head.

## Hunters with disabilities

*Utah Admin. Rule R657-12*

Utah provides special hunting accommodations for people with disabilities.

For a complete copy of these accommodations and what's required to qualify for them, please visit [wildlife.utah.gov/rules](http://wildlife.utah.gov/rules) or call any Division office.

## Hunting methods

Several rules apply to the methods that you may use to hunt waterfowl in Utah.

## Use of boats, and airborne and land vehicles

*50 CFR 20.21(e), Utah Code § 23-20-3 and Utah Admin. Rule R657-9-10*

You may use a boat or motorized aquatic vehicle to hunt waterfowl if you obey the following rules:

- Migratory game birds may not be taken from any motorboat, or craft that has a motor attached to it, unless the motor has been completely shut off and the motorboat or craft has stopped moving.

- Migratory game birds may not be taken from a sailboat unless the boat's sails are furled and the boat has stopped moving.

You may use any of these crafts under power to retrieve dead or crippled birds, but you may not shoot crippled birds from a craft if its motor is still running.

Also, you may not use any of the crafts listed above, or any type of motor-driven land, water or air transportation, to concentrate, drive, rally or stir up migratory birds.

## Airboats and personal watercraft

*Utah Admin. Rule R657-9-11*

Air-thrust or air-propelled boats and personal watercraft are not allowed in designated parts of the following waterfowl management or federal refuge areas:

- Box Elder County: Box Elder Lake, Bear River, that part of Harold S. Crane within one-half mile of all dikes and levees, Locomotive Springs, Public Shooting Grounds and Salt Creek, and that part of the Bear River Migratory Bird Refuge north of the "D" line dike, and outside Units 1, 3, 4 and 5 as posted.
- Daggett County: Brown's Park
- Davis County: Howard Slough, Ogden Bay and Farmington Bay within diked units or as posted.
- Emery County: Desert Lake
- Millard County: Clear Lake and Topaz Slough
- Tooele County: Timpie Springs
- Uintah County: Stewart Lake
- Utah County: Powell Slough
- Wayne County: Bicknell Bottoms
- Weber County: Ogden Bay within diked units or as posted, and the portion of the Harold S. Crane Waterfowl Management Area that falls within the county line

The term "personal watercraft" means a motorboat that meets the following conditions:

- It is less than 16 feet in length.
- It is propelled by a water jet pump.
- It is designed to be operated by a person sitting, standing or kneeling on the vessel, rather than sitting or standing inside the vessel.

## Restrictions on motorized boats

*Utah Admin. Rule R657-9-12*

Portions of three WMAs have been set aside for hunters who enjoy walking or paddling nonmotorized boats into the marsh. Motorized boats, which are boats with a motor of any kind, including a gas engine or an electric motor, are not allowed in the following areas:

- Farmington Bay, South Crystal Unit
- Harold S. Crane: Rainbow Pond Unit and the main East Pond Unit
- Public Shooting Grounds, Pintail Unit.

In addition: motorized boats are allowed in the Ogden Bay, Unit 3 main impoundment, but motorized boats in this impoundment are restricted to slow, wakeless boating speeds only.

## Motorized vehicle access on waterfowl management areas

*Utah Admin. Rule R657-9-12*

Motorized vehicle travel on state waterfowl management areas is restricted to county roads, improved roads and parking areas.

Off-highway vehicles are not permitted on state waterfowl management areas, except in areas that are marked or posted open to their use.

Off-highway vehicles are not permitted on the Bear River Migratory Bird Refuge.

## Waterfowl blinds on waterfowl management areas

*Utah Admin. Rule R657-9-34*

You can construct and use waterfowl blinds on Division waterfowl management areas (WMAs) as long as you obey the following rules:

- Waterfowl blinds may not be left unattended overnight unless they're constructed entirely of non-woody, vegetative materials that naturally occur where the blind is located.
- Live or dead-standing trees and shrubs on WMAs may not be cut or damaged unless the Division gives express, written permission to do so.
- Soil or rock, above or below the water's surface, may not be excavated on a WMA unless

## Boating laws and rules

Utah State Park Rangers want you to have a safe waterfowl hunt. If your plans include a motorboat, please remember these laws and rules to ensure your safe return home:

- Everyone on your boat or vessel must have a properly fitted, U.S. Coast Guard-approved life jacket. Youth 12 and under must wear a life jacket at all times.
- Vessels longer than 16 feet must have a throwable life preserver immediately available.
- All motorboats, including those with electric motors, must be registered and properly numbered.
- All motorboats must display appropriate navigation lights from sunset to sunrise. Manually propelled boats may use a white light.
- Let someone know where you are going and when you expect to return, along with your boat and vehicle license number. Remember to stick to your plan!
- All motorboats must carry a Type B, U.S. Coast Guard-approved fire extinguisher, unless exempt.
- In addition to the equipment above, airboats operating on Great Salt Lake and adjacent Waterfowl Management Areas (WMAs) must have a compass and either a flare, strobe light or other visual distress signal.

For additional boating safety information, visit [stateparks.utah.gov/boating](http://stateparks.utah.gov/boating) or call 801-538-2628.

the Division gives express, written permission to do so.

- Rock and soil material may not be transported to a WMA to construct a blind.
- Waterfowl blinds may not be constructed or used in any area or manner that obstructs vehicle or pedestrian travel on dikes.

Waterfowl blinds that are constructed or maintained on WMAs in violation of the rules above may

be removed or destroyed by the Division without notice.

The restrictions above do not apply to the following WMA areas:

- Farmington Bay Waterfowl Management Area—west and north of Unit 1, Turpin Unit and Crystal Unit.
- Howard Slough Waterfowl Management Area—west and south of the exterior dike separating the WMA's fresh-water impoundments from the Great Salt Lake.
- Ogden Bay Waterfowl Management Area—west of Unit 1, Unit 2 and Unit 3.
- Harold S. Crane Waterfowl Management Area—one half mile north and west of the exterior dike separating the WMA's fresh water impoundments from the Willard Spur.

### Unattended blinds

In addition to the rules above, two other important rules apply to waterfowl blinds on WMAs and other state lands that are open to public hunting:

- Any person may use any unoccupied, permanent waterfowl blind. Waterfowl blinds on state lands are open on a first-come, first-served basis to everyone, not just to the person who built the blind.
- You cannot leave waterfowl blinds or decoys unattended overnight to reserve a spot.

### Sinkbox

*50 CFR 20.21(c) and Utah Admin. Rule R657-9-13*

You cannot take migratory game birds from any type of low-floating device that allows you to be concealed beneath the surface of the water. Called "sinkboxes," these devices float on the water, but they float barely above the water's surface. You may not hunt from sinkboxes. You may, however, hunt from other types of boxes, blinds or culverts that are attached to the bottom of the body of water where you are hunting.

### Using dogs to hunt

*Utah Admin. Rule R657-9-28*

Dogs may be used to locate and retrieve waterfowl during open hunting seasons.

Dogs are not allowed on state wildlife management or waterfowl management areas, except

## Hunting dog field trials and training

*Utah Admin. Rule R657-46*

Many of today's hunting dog field trialers and trainers want to use game birds (waterfowl or upland game) in their dog-related pursuits.

Because game birds in Utah are classified as protected wildlife, rules and regulations govern their use in these activities.

If you want to use live game birds in dog field trials and training, please review the rules thoroughly. You can pick up a copy of the rules at any Division office or find them online at [wildlife.utah.gov/rules](http://wildlife.utah.gov/rules).

during open hunting seasons or as posted by the Division.

### Live decoys

*50 CFR 20.21(f) and Utah Admin. Rule R657-9-14*

You may not use live birds as decoys.

Also, you may not take migratory game birds from an area where tame or captive live ducks or geese are present. The only exception is if the tame or captive live ducks or geese are—and have been—confined for at least 10 consecutive days before you take the migratory game birds. The area of confinement must substantially reduce the sound of the tame or captive birds' calls. It must also totally conceal the birds from the sight of wild migratory waterfowl.

### Amplified bird calls

*50 CFR 20.21 (g) and Utah Admin. Rule R657-9-15*

You may not use recorded or electronically amplified bird calls or sounds, or recorded or electronically amplified imitations of bird calls or sounds.

### Baiting

*50 CFR 20.21 (i) and Utah Admin. Rule R657-9-16*

Baiting is an illegal activity that involves the spreading of shelled, shucked or unshucked corn, wheat or other grain, or salt or other feed, to lure, attract or entice birds to an area. You may not hunt waterfowl, snipe or coots by baiting. You also cannot hunt on or over any baited area if you know, or reasonably should know, that the area is or has been

baited. An area is considered to be a baited area for 10 days after the bait has been completely eaten or removed from the area.

You may not take waterfowl or coots on or over lands or areas where grain or other feed has been distributed or scattered as the result of the manipulation of an agricultural crop or other feed on the land where grown. However, you may take snipe on or over these areas.

Nothing in this guidebook prohibits you from harvesting waterfowl or coots on land with residual crops or feed left as a result of normal agricultural practices.

You also may take waterfowl, snipe and coots on or over the following lands or areas, as long as these areas have not been baited:

- Standing crops or flooded standing crops (including aquatics); standing, flooded or manipulated natural vegetation; flooded harvested croplands; or lands or areas where seeds or grains have been scattered solely as the result of a normal agricultural planting, harvesting, post-harvest manipulation (for example, a farmer working his land after the harvest is over) or normal soil stabilization practice (for example, a farmer planting a cover crop to protect the soil during the winter);
- From a blind or other place of concealment camouflaged with natural vegetation;
- From a blind or other place of concealment camouflaged with vegetation from agricultural crops, as long as such camouflaging does not result in the exposing, depositing, distributing or scattering of grain or other feed; or
- Standing or flooded standing agricultural crops where grain is inadvertently scattered solely as a result of a hunter entering or exiting a hunting area, placing decoys or retrieving downed birds.

## Falconry

*Utah Admin. Rule R657-9-32*

If you are interested in hunting waterfowl or coots with a falcon, you must obtain a hunting or combination license, a HIP number, a federal migratory game bird stamp and a falconry certificate of registration (COR).

The areas open and the bag and possession limits for falconry are listed on page 23.

Legal falconry hours for waterfowl hunting are 30 minutes before official sunrise until official sunset.

## Closed areas

*Utah Admin. Rule R657-9-30*

Unless you have prior permission from the Division, you may visit state waterfowl management areas (WMAs) only during the hunting season or for other activities for which the WMAs have been posted open. While you're on a WMA, you may not participate in activities that are prohibited on the WMA.

In addition to the rules above, the following areas are closed to the taking, hunting, shooting at or rallying of waterfowl, snipe or coot:

- Brown's Park WMA—the part adjacent to the headquarters.
- Clear Lake WMA—Spring Lake.
- Desert Lake WMA—the part known as "Desert Lake."
- Farmington Bay WMA—the headquarters and learning center area; within 600 feet of dikes and roads accessible by motorized vehicles; and the waterfowl rest area in the northwest quarter of Unit 1 as posted.
- Goshen Warm Springs WMA
- Ogden Bay WMA—the headquarters area.
- Public Shooting Grounds WMA—the part that lies above and adjacent to the Hull Lake Diversion Dike known as "Duck Lake."
- Salt Creek WMA—the part known as "Rest Lake."
- State Parks—Hunting of any wildlife is prohibited within the boundaries of all state park areas except those designated open (Utah Admin. Rule R651-614-4).
- Great Salt Lake Marina and adjacent areas as posted.
- Millard County—Gunnison Bend Reservoir and the inflow upstream to the Southerland Bridge.
- Salt Lake International Airport—Hunting and shooting is prohibited. Hunting or shooting on the airport or its related or controlled properties is not allowed without the express, prior

written approval of the airport director (Salt Lake City, UT, ORD. Sec. 16.12.325).

The following areas are also closed to trespass of any kind:

- Clear Lake WMA—Spring Lake.
- Desert Lake WMA—the part known as "Desert Lake."
- Farmington Bay WMA—the waterfowl rest area in the northwest quarter of Unit 1 as posted.
- Goshen Warm Springs WMA
- Public Shooting Grounds WMA—the part that lies above and adjacent to the Hull Lake Division Dike known as "Duck Lake."
- Salt Creek WMA—the part known as "Rest Lake."

## Trespassing

*Utah Code § 23-20-14 and 23-20-3.5*

While taking wildlife or engaging in wildlife-related activities, you may not do any of the following activities:

- Enter upon privately owned land that is cultivated or properly posted without the permission of the owner or the person in charge of the land
- Refuse to immediately leave the private land if requested to do so by the owner or person in charge
- Obstruct any entrance or exit to private property

"Cultivated land" is land that is readily identifiable as land whose soil is loosened or broken up for the raising of crops, land used for the raising of crops, or a pasture that is artificially irrigated.

"Permission" means written authorization from the owner or person in charge to enter upon private land that is cultivated or properly posted. Permission must include all of the following details:

- The signature of the owner or person in charge
- The name of the person being given permission
- The appropriate dates
- A general description of the land

"Properly posted" means that "No Trespassing" signs—or a minimum of 100 square inches of bright yellow, bright orange or fluorescent paint—are displayed at all corners, on fishing streams crossing

property lines, and on roads, gates and rights-of-way entering the land. If metal fence posts are used, the entire exterior side must be painted.

You may not post private property you do not own or legally control or land that is open to the public as provided by Utah Code § 23-21-4. In addition, it is unlawful to take protected wildlife or their parts while trespassing in violation of Utah Code § 23-20-14.

You are guilty of a class B misdemeanor if you violate any provision described in this section. Your license, tag or permit privileges may also be suspended.

## Possession and transportation

Once you've taken a migratory game bird, several rules apply to the use of the game you've taken.

### During closed season

*50 CFR 20.32 and Utah Admin. Rule R657-9-17*

You may not possess any freshly killed migratory game birds when the hunting season is closed.

### Live birds

*50 CFR 20.38 and Utah Admin. Rule R657-9-18*

You may not possess or transport live migratory game birds. You must immediately kill any migratory game bird you wound and include it in your bag limit.

A hunting license does not give you authority to possess live migratory game birds. More information about the possession of live migratory game birds is found in Utah Admin. Rule R657-4 at [wildlife.utah.gov/rules](http://wildlife.utah.gov/rules).

## Waste of migratory game birds

*50 CFR 20.25, Utah Code § 23-20-8 and Utah Admin. Rule R657-9-19*

You may not waste any migratory game birds or permit them to be wasted or spoiled. (Waste means to abandon migratory game birds or to allow them to spoil or be used in a manner not normally associated with their beneficial use. For example, using the meat as fertilizer or for trapping bait is not considered a beneficial use.)

In addition, you may not kill or cripple any migratory game bird without making a reasonable effort to immediately retrieve it. Any migratory

game bird that you wound must be immediately killed and included in your bag limit.

## Termination of possession

50 CFR 20.39 and Utah Admin. Rule R657-9-20

Birds that you have taken are no longer in your possession once you've delivered the birds to another person as a gift, or once you've taken the birds to a migratory bird preservation facility (i.e., a facility where birds are taken to be cleaned and prepared for the table) or to a post office or common carrier and consigned them for transport to a person other than yourself.

## Tagging requirement

50 CFR 20.36 and Utah Admin. Rule R657-9-21

If you leave your birds in the custody of another person for picking, cleaning, processing, shipping, transporting or storing, including temporary storage, or at a location to have taxidermy services performed, you must tag the birds. You must sign the tag, and it must include your address and Utah hunting license number, the total number and species of birds taken and the date the birds were killed.

If you're transporting migratory game birds that you've taken, the birds are not considered to be in storage or temporary storage, and you don't need to have a tag on them at that time.

## Giving birds to someone else

50 CFR 20.40, Utah Code § 23-20-9 and Utah Admin. Rule R657-9-22

You can give the waterfowl you've taken to another person, but please remember the following:

- If you give birds to someone at any location, you must tag the birds. The tag must include your address and Utah hunting license number, the total number and species of birds you're donating, the date the birds were killed and the date the birds were donated. You must also sign the tag.
- If you accept birds from another hunter, those birds become part of your possession limit. For example, if you have 10 ducks at home in your freezer, and you accept 4 ducks from another hunter, you now have 14 ducks in your possession. That's the maximum number of ducks you can have in your possession in Utah. You'll have to eat some of those ducks before you can go hunting and take more.

## Custody of another person's birds

50 CFR 20.37 and Utah Admin. Rule R657-9-23

You may not receive or have in your custody migratory game birds that belong to another person unless the birds have been tagged in the manner described in the Tagging requirement section in the adjacent column.

## Species identification requirement

50 CFR 20.43 and Utah Admin. Rule R657-9-24

You may not transport migratory game birds within the United States unless the head or one fully feathered wing remains attached to each bird while you're transporting them to your home or to a migratory bird preservation facility (i.e., a facility where birds are taken to be cleaned and prepared for the table).

## Marking package or container

50 CFR 20.44 and Utah Admin. Rule R657-9-25

You may not transport migratory game birds, by the Postal Service or a common carrier, unless all of the following items are clearly marked on the outside of the package or container:

- Your name and address
- The name and address of the recipient
- The number and the species of the birds contained in the package

A Utah shipping permit must accompany each migratory game bird package that is shipped within or from Utah. Shipping permits are available from the Division.

## Migratory bird preservation facilities

50 CFR 20.82 and 20.83 and Utah Admin. Rule R657-9-26

No migratory bird preservation facility (see definition on page 42) shall receive or have in custody any migratory game bird unless accurate records are maintained that can identify who each bird was received from and can show all of the following information:

- The number of each species
- The location where they were taken
- The date the birds were received

- The name and address of the person from whom the birds were received
- The date the birds were disposed of
- The name and address of the person to whom the birds were delivered

In addition, migratory bird preservation facilities may not destroy any records they are required to maintain under this section for a period of one year following the last entry on record.

Record keeping as required by this section is not necessary at hunting clubs that do not fully process migratory birds by removing their head and wings.

No migratory bird preservation facility may prevent any person authorized to enforce this part from entering their facilities at all reasonable hours and inspecting the records and the premises where bird-processing operations are being carried out.

## Importation

For information regarding the importation of migratory game birds you've harvested in another country, please see 50 CFR 20.61 and 20.62, and Utah Admin. Rule R657-9-29, at [wildlife.utah.gov/rules](http://wildlife.utah.gov/rules).

## Bag limits

*50 CFR 20.11 and 20.24 and Utah Admin. Rule R657-9-29*

Federal bag and possession limits apply to migratory game bird hunting, regardless of the number of states or provinces you may have hunted in during your trip. For example, if you hunt ducks in two states, the total number of ducks you take cannot exceed a single federal bag and possession limit (e.g., if the federal bag limit is 7 ducks, and you take 5 ducks in one state and then travel to another state and hunt the same day, you can take only 2 ducks in the second state.)

## Checkpoints and officer contacts

*Utah Code §§ 23-20-25 and 77-23-104*

To help the Division fulfill its responsibility as trustee and custodian of Utah's wildlife, Division conservation officers and biologists monitor the taking and possession of waterfowl and the required permits, firearms and equipment used for hunting.

You should expect to encounter conservation officers and biologists checking hunters in the marsh and at checkpoints.

If you're contacted by a conservation officer, you must provide the officer with the items he or she requests, including any licenses and permits required for hunting, any devices used to participate in hunting and any birds you've taken. These contacts allow the Division to collect valuable information about Utah's waterfowl populations.

## Special regulations for national wildlife refuges

*Utah Admin. Rule R657-9-30*

More than 500 refuges across the nation and the U.S. territories are included in the U.S. Fish and Wildlife Service's National Wildlife Refuge System. Three of those refuges—Bear River, Fish Springs and Ouray—are located in Utah, and the following regulations apply to all.

- Current state and federal regulations apply for season dates, shooting hours, and bag and possession limits.
- Hunters may possess and use only approved nontoxic shot while in the field.
- Hunters may not enter closed areas to retrieve birds. Therefore, allow enough room between the closed area boundary and where you're hunting to retrieve your birds.
- Camping is not permitted on the refuges.
- Prohibited activities include wood cutting and gathering, littering, disturbing or removing plants or natural objects, and removing artifacts of antiquity. Shell casings and ammunition boxes are litter. Failure to make a reasonable effort to retrieve litter could result in a citation.

The following is specific information and regulations for each of the federal refuges in Utah:

### Bear River

*50 CFR 32.64 and 27.21*

- Hunters may not shoot or hunt within 100 yards of principal refuge roads (tour route).
- Hunters may not use pits or permanent blinds. The building of a temporary blind made of

natural material is permitted, but is not allowed prior to the opening day.

- Airboats are permitted only in Unit 9 and Block C of the refuge.
- Off-highway vehicles are not permitted on the Bear River Migratory Bird Refuge.
- Hunters may enter the refuge two hours before legal sunrise and must exit the refuge by two hours after legal sunset. The refuge prohibits leaving decoys, boats, vehicles and other personal property on the refuge overnight.
- Hunters may only park in designated parking sites.
- Any hunters entering, using or occupying the refuge for waterfowl hunting must abide by all the terms and conditions in the Refuge Hunting Brochure. The brochure is available at [www.fws.gov/bearriver](http://www.fws.gov/bearriver).
- When hunters are in their vehicles, at parking lots or traveling on refuge roads, all firearms must be completely unloaded (including magazines) and cased or dismantled.
- Hunters may possess only 10 shells while hunting on or within 50 feet from the center of the dikes on Unit 1A or 2C.
- A portion of the Bear River Refuge will be open for the youth waterfowl hunt on Sept. 17, 2011.
- Archery hunting is not allowed on the refuge.
- Predator and snipe hunting are not allowed on the refuge.

For more information, call the refuge manager at 435-723-5887.

## Fish Springs

50 CFR 32.64

- The refuge allows the hunting of ducks, coots and geese in designated areas.
- All waterfowl hunters must register individually at the visitor information station before entering the open hunting area and before exiting the refuge.
- Hunters may only possess firearms legally used to hunt waterfowl unless the firearm is cased or dismantled.
- Hunters may construct nonpermanent blinds, but must remove all blinds constructed out of

materials other than vegetation at the end of the hunting day.

- The refuge provides a Special Blind Area for use by the disabled. The refuge prohibits trespass for any reason by any individual not registered to utilize the area.
- The refuge allows the use of small boats, 15 feet or less, but does not allow gasoline motors and air boats.
- Hunters may enter the refuge two hours before sunrise, and must exit the refuge by 1½ hours after sunset. Hunters may not leave decoys, boats, vehicles and other personal property on the refuge overnight.
- The refuge will be open for the youth waterfowl hunt on Sept. 17, 2011.

For more information, call the refuge manager at 435-831-5353.

## Ouray

- Leota Bottom is the only area on the Ouray refuge open to duck, goose and coot hunting.
- Access into Leota Bottom is limited to foot, bike, canoe, rowboat or electric motorized boats. Gas-powered boats are not permitted.
- All firearms must be unloaded, cased or dismantled and must remain in the vehicle in the closed hunting areas of the refuge.
- The refuge will be open for the youth waterfowl hunt on Sept. 17, 2011.
- Snipe and swan hunting are not allowed on the refuge.
- The use of pits and permanent blinds is not allowed. The building of a temporary blind made of natural material is permitted, but is not allowed prior to opening day.

For more information, call the refuge manager at 435-789-0351.

# SEASON DATES AND BAG AND POSSESSION LIMITS

*Utah Admin. Rule R657-9-31*

## Common snipe

**Dates:** Oct. 1, 2011–Jan. 14, 2012 statewide.

**Bag and possession limits:** The daily bag limit is 8, and the possession limit is 16.

## Ducks, mergansers and coots

**Dates:** Sept. 17, 2011 (for Youth Hunting Day) and Oct. 1, 2011–Jan. 14, 2012 statewide (except for scaup, which you can hunt Oct. 1–Dec. 24, 2011).

**Bag and possession limits:** All bag and possession limits are listed below:

- Ducks and mergansers—7 daily (except no more than 1 canvasback, no more than 2 hen mallards, no more than 2 pintails, no more than 2 redheads and no more than 3 scaup). The possession limit is twice the daily bag limit.
- Coots—25 daily or in possession.

## Falconry

**Common snipe:** Oct. 1, 2011–Jan. 14, 2012 statewide.

**Ducks, mergansers and coots:** Sept. 17, 2011 (for Youth Hunting Day) and Oct. 1, 2011–Jan. 14, 2012 statewide.

**Dark geese (inside the North Goose Zone):** Sept. 17, 2011 (for Youth Hunting Day) and Oct. 1, 2011–Jan. 14, 2012.

**Dark geese (outside the North Goose Zone):** Sept. 17, 2011 (for Youth Hunting Day), Oct. 1–13, 2011 and Oct. 29, 2011–Jan. 29, 2012.

**Light geese (inside the North Goose Zone):** Oct. 22, 2011–Jan. 14, 2012 and Feb. 18–March 10, 2012

**Light geese (outside the North Goose Zone):** Oct. 14, 2011–Jan. 14, 2012 and March 1–10, 2012.

**Note:** The Bear River, Fish Springs and Ouray national wildlife refuges and the Brown's Park, Desert Lake, Farmington Bay, Harold S. Crane,

Howard Slough, Locomotive Springs and Ogden Bay waterfowl management areas will be closed to light goose hunting from Feb. 18–March 10, 2012.

**Falconry bag and possession limits for common snipe, ducks, geese and coots:** The daily bag limit is 3 birds. The possession limit is 6 (singly or in combination).

**North Goose Zone boundary:** See page 25.

## Youth Hunting Day

*Utah Admin. Rule R657-9-29*

Hunters 15 years old or younger will have the marshes to themselves on Sept. 17, 2011 as Utah holds its annual Youth Hunting Day.

To hunt on Youth Hunting Day, you must be 15 years old or younger. You must also have a Utah hunting, combination or three-day nonresident small-game license, and a HIP registration number.

Adults must accompany youth hunters. Please see page 6 of this guide for more information about the requirements adults must meet to accompany a youth in the field.

The shooting hours on Youth Hunting Day are from 30 minutes before sunrise until sunset. This means that on Sept. 17, youth can hunt from 6:40 a.m. until 7:33 p.m.

The bag limits for Youth Hunting Day are as follows:

- Ducks and mergansers: 7 birds (except no more than 1 canvasback, no more than 2 hen mallards, no more than 2 pintails, no more than 2 redheads and no more than 3 scaup).
- Coots: 25 birds
- Light geese (snow, blue and Ross'): Closed for youth hunt
- Dark geese (cackling, Canada, white-fronted and brant): 3 birds
- Common snipe and swan: Closed for youth hunt

## Show courtesy during goose hunt

The extended light goose hunt (outside the northern zone) occurs in early March, mostly on private lands.

If you want to hunt light geese—or any other waterfowl—on private property, you *must* obtain written permission from the landowner before you can hunt.

Ideally, you should obtain this permission weeks, or even months, before the hunt begins. If you're knocking on a landowner's door after the hunt has started, you've waited too long.

To download a Landowner/Hunter permission card, visit [go.usa.gov/cEf](http://go.usa.gov/cEf).

If a landowner denies you permission, accept the decision calmly and try contacting someone else.

The long-term success of the extended light goose hunt depends on hunters respecting landowners and their properties. You can do your part by obtaining permission, packing out your trash and remaining courteous to anyone you encounter.

## Geese

### Dark geese (inside the North Goose Zone):

Sept. 17, 2011 (for Youth Hunting Day) and Oct. 1, 2011–Jan. 14, 2012.

### Dark geese (outside the North Goose Zone):

Sept. 17, 2011 (for Youth Hunting Day), Oct. 1–13, 2011 and Oct. 29, 2011–Jan. 29, 2012.

### Light geese (inside the North Goose Zone):

Oct. 22, 2011–Jan. 14, 2012 and Feb. 18–March 10, 2012.

### Light geese (outside the North Goose Zone):

Oct. 14, 2011–Jan. 14, 2012 and March 1–10, 2012.

**Note:** The Bear River, Fish Springs and Ouray national wildlife refuges and the Brown's Park, Desert Lake, Farmington Bay, Harold S. Crane, Howard Slough, Locomotive Springs and Ogden Bay waterfowl management areas will be closed to light goose hunting from Feb. 18–March 10, 2012.

## Mercury and ducks

Because of elevated mercury levels in three duck species—cinnamon teal, Northern shoveler and common goldeneye—hunters should eat them only on a limited basis. You can read the latest consumption advisories for these species at [waterfowladvisories.utah.gov](http://waterfowladvisories.utah.gov).

Northern shoveler

Cinnamon teal

Common goldeneye

All photos, U.S. Fish and Wildlife Service

**North Goose Zone boundary:** See page 25.

**Bag and possession limits:** Dark geese (cackling, Canada, white-fronted, brant)—3 per day, 6 in possession; Light geese (snow, blue, Ross')—10 per day, 20 in possession.

## Rails

No open season.

## 2011–2012 North Goose Zone boundary

Boundary begins at the Weber-Box Elder county line at I-15; north on I-15 to the Perry access road; southwest on this road to the Bear River Migratory Bird Refuge southern boundary; west and north on this southern boundary to the north and most western corner of the refuge at latitude 41.53 decimal degrees (NAD 83 datum); west cross-country on this latitude to the East Promontory Road; north on this road to Golden Spike Drive; west on this drive to the Salt Wells Flat county road; west on this road to the Locomotive Springs-Snowville-Stone, Idaho county road; north on this road to the Utah-Idaho state line; east on this state line to Utah-Wyoming state line; south on this state line to the Summit-Rich county line; west on this county line to the Rich-Morgan county line; northwest on this county line to the Rich-Weber county line; west on this county line to the Weber-Cache county line; west on this county line to the Weber-Box Elder county line; west on this county line to I-15.

*Utah Division of Wildlife Resources makes no warranty with respect to the accuracy, completeness or usefulness of the data. Utah Division of Wildlife Resources assumes no liability for direct, indirect, special, or consequential damages resulting from the use or misuse of this data or any of the information contained herein.*

## Swan (holders of swan permits only)

**Dates:** Oct. 1–Dec. 11, 2011, unless the Division's monitoring program indicates that 10 trumpeter swans have been taken. If 10 or more trumpeter swans are taken, the season will be closed earlier than Dec. 11.

**Bag and possession limit:** The holder of a swan permit may take and possess only one swan during the 2011 season.

**Area open to swan hunting:** Boundary begins in Salt Lake City at I-80 and I-15; north on I-15 to Exit 363 (Forest Street); west on this street to the Bear River Migratory Bird Refuge northern boundary; west along this northern boundary to the north and most western corner of the refuge at latitude 41.53 decimal degrees (NAD 83 datum); west cross country on this latitude to the East Promontory Road; north on this road to SR-83; north on SR-83 to I-84; west on I-84 to SR-30; southwest on SR-30 to the Nevada-Utah state line; south on this state line to I-80; east on I-80 to I-15.

# SHOOTING HOURS

Utah Admin. Rule R657-9-31

Hunters may take waterfowl, snipe and coots during the shooting hours listed below, except on **October 1 in Box Elder, Cache, Davis, Salt Lake and Weber counties, when the legal shooting hours are 7:30 a.m. to sunset.**

Utah's annual Youth Hunting Day will take place on Sept. 17, 2011. For details, please see the information box on page 23.

Legal shooting times may differ slightly, depending on the area of the state where you're hunting. Consult the time zone map to learn the differences.

Hunters may not take wildlife or discharge any firearm or archery tackle on state-owned lands adjacent to the Great Salt Lake, on Division-controlled waterfowl management areas or on federal refuges between official sunset and 30 minutes before official sunrise.

# Identification

## Mallard

Drake has a solid green head and a short tail. Hen is mottled brown. Length: 24", Weight: 2 ¾ lbs.

*Eclipse drake*

*Hen*

Orange bill

*Fall plumage drake*

Yellow to olive bill

Orange feet

*Hen*

*Drake*

# Identification

## Gadwall

Often mistaken for a mallard. Quicker and more agile than the mallard.

Length: 21", Weight: 2 lbs.

Yellow feet

*Hen*

Orange bill

Bluish-black bill

*Drake*

*Hen*

## Pintail

Distinguished by  
long, pointed tail.

Length: 26"

Weight: 1  $\frac{3}{4}$  lbs.

*Fall plumage drake*

*Hen*

Bluish-gray feet

*Eclipse drake*

*Hen*

*Drake*

# Identification

## Wigeon

The white belly and forewing are very showy in the air. Drakes whistle; hens have a loud kaow and a lower qua-awk.

Length: 21"

Weight: 1¾ lbs.

*Hen*

*Fall plumage drake*

*Eclipse drake*

*Drake*

## Shovelers

Often called spoon bill and mistaken for a mallard.

Length: 19 ½", Weight: 1 ½ lbs.

*Eclipse drake*

*Fall plumage drake*

Black, shovel-shaped bill

*Hen*

Orange, shovel-shaped bill

*Hen*

*Drake*

# Identification

## Redhead

Often confused with the canvasback, the redhead has a grayer back and a more rounded head.

Length: 20", Weight: 2 ½ lbs.

*Fall plumage drake*

*Eclipse drake*

*Hen*

*Hen*

*Drake*

## Canvasback

One of the largest and fastest ducks. The wedge-shaped bill gives this duck a unique profile. The drake has a whitish back. Length: 22", Weight: 3 lbs.

*Fall plumage drake*

*Hen*

*Eclipse drake*

*Drake*

*Hen*

# Identification

## Scaup

The scaup has a blue bill and a white band along the back of the wing.  
Length: 17", Weight: 17 $\frac{7}{8}$  lbs.

*Fall plumage drake*

*Hen*

*Hen*

*Drake*

## Ring-necked duck

Both sexes have a pale, whitish ring around the tip of their bill. In flight, wings and back appear darker than on the scaup.

Length: 17", Weight: 2 ½ lbs.

**Hen**

**Fall plumage drake**

**Drake**

**Hen**

# Identification

## Snow goose

Black wing tips

*Lesser Snow Goose*

Black wing tips

*Blue Phase Lesser Snow Goose*

Dark abdomen

*Ross' Goose*

Short bill

Wart-like  
bumps on base

# Swan

## *Adult Tundra Swan*

White wing tips

Eye is distinct  
from bill

Irregular yellow spot  
in front of the eyes

## *Adult Trumpeter Swan*

Eye appears to be  
part of the bill

No yellow spot in  
front of the eyes

# Identification

## Pelican

Not legal to shoot.

Black wing tips

Large yellow bill

## Common snipe

The snipe usually flushes singly or in pairs and has a rust-colored patch on the back. The dowitcher, which flushes in flocks, has white feathers.

## Dowitcher

Not legal to shoot.

## DEFINITIONS

CFR 20.11, Utah Code § 23-13-2 and Utah Admin. Rule R657-9-2

**Bait** means shelled, shucked or unshucked corn, wheat or other grain, salt or other feed that lures, attracts or entices birds.

**Baited area** means any area on which shelled, shucked or unshucked corn, wheat or other grain, salt or other feed has been placed, exposed, deposited, distributed or scattered, if that shelled, shucked or unshucked corn, wheat or other grain, salt or other feed could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take migratory game birds. Any such area will remain a baited area for ten days following the complete removal of all such shelled, shucked or unshucked corn, wheat or other grain, salt or other feed.

**Baiting** means the direct or indirect placing, exposing, depositing, distributing or scattering of salt, grain or other feed that could serve as a lure or attraction for migratory game birds to, on or over any areas where hunters are attempting to take them.

**CFR** means the Code of Federal Regulations.

**Closed season** means the days on which migratory game birds shall not be taken.

**Daily bag limit** means the maximum number of migratory game birds of a single species, or combination (aggregate) of species, permitted to be taken by one person in any one day during the open season in any one specified geographic area for which a daily bag limit is prescribed.

**Dark geese** means the following species: cackling, Canada, white-fronted and brant.

**Division** means the Utah Division of Wildlife Resources.

**Light geese** means the following species: snow, blue and Ross'.

**Live decoys** means tame or captive ducks, geese or other live birds.

**Manipulation** means the alteration of natural vegetation or agricultural crops by activities that include but are not limited to mowing, shredding, discing, rolling, chopping, trampling, flattening, burning or herbicide treatments. The term "manipulation" does not include the distributing or scattering of grain, seed or other feed after removal from storage on the field where grown.

**Migratory bird preservation facility** means any of the following people or organizations:

- Any person who—at their residence or place of business, and for hire or other consideration—receives, possesses or has in custody any migratory game birds belonging to another person for purposes of picking, cleaning, freezing, processing, storage or shipment.
- Any taxidermist, cold-storage facility or locker plant that for hire or other consideration receives, possesses or has in custody any migratory game birds belonging to another person for purposes of picking, cleaning, freezing, processing, storage or shipment.
- Any hunting club that in the normal course of operations receives, possesses or has in custody any migratory game birds belonging to another person for purposes of picking, cleaning, freezing, processing, storage or shipment.

**Migratory game birds** means those migratory birds included in the terms of conventions between the United States and any foreign country for the protection of migratory birds, for which open seasons are prescribed in this part and belong to the following families:

- *Anatidae* (ducks, mergansers, swans and geese, including brant)
- *Columbidae* (doves and pigeons)
- *Gruidae* (cranes)
- *Rallidae* (rails, coots and gallinules)
- *Sclopacidae* (woodcock and snipe)

**Natural vegetation** means any non-agricultural, native or naturalized plant species that grows at a site in response to planting or from existing seeds or other propagules. The term "natural vegetation" does

not include planted millet. However, planted millet that grows on its own in subsequent years after the year of planting is considered natural vegetation.

**Nonresident** means a person who does not qualify as a resident.

**Nontoxic shot** means soft iron, steel, copper-plated steel, nickel-plated steel, zinc-plated steel, bismuth-tin, tungsten-iron, tungsten-polymer, tungsten-matrix, tin and any other shot types approved by the U.S. Fish and Wildlife Service. Lead, nickel-plated lead, copper-plated lead, copper and lead/copper alloy shot have not been approved.

**Normal agricultural operation** means a normal agricultural planting, harvesting, post-harvest manipulation or agricultural practice that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.

**Normal agricultural planting, harvesting or post-harvest manipulation** means a planting or harvesting undertaken for the purpose of producing and gathering a crop, or manipulation after such harvest and removal of grain that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.

**Normal soil stabilization practice** means a planting for agricultural soil erosion control or post-mining land reclamation conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture for agricultural soil erosion control.

**Off-highway vehicle** means any motor vehicle designed for or capable of travel over unimproved terrain.

**Open season** means the days on which migratory game birds may lawfully be taken. Each period prescribed as an open season shall be construed to include the first and last days thereof.

**Permanent waterfowl blind** means any waterfowl blind that is left unattended overnight and that is not a portable structure capable of immediate relocation.

**Possession** means actual or constructive possession.

**Possession limit** means the maximum number of migratory game birds of a single species or a combination of species permitted to be possessed by any one person when lawfully taken in the United States in any one specified geographic area for which a possession limit is prescribed.

**Resident** means a person who has a fixed permanent home and principal establishment in Utah for six consecutive months immediately preceding the purchase of a license or permit, AND DOES NOT claim residency for hunting, fishing or trapping in any other state or country.

An individual retains Utah residency if he or she leaves Utah to serve in the armed forces of the United States, or for religious or educational purposes, and does NOT claim residency for hunting, fishing or trapping in any other state or country.

Members of the armed forces of the United States and dependents are residents as of the date the member reports for duty under assigned orders in Utah, if:

- The member is NOT on temporary duty in Utah and does NOT claim residency for hunting, fishing or trapping in any other state or country.
- The member presents a copy of his or her assignment orders to a Division office to verify the member's qualification as a resident.

A nonresident attending an institution of higher learning in Utah as a full-time student may qualify as a resident if the student has been present in Utah for 60 consecutive days immediately preceding the purchase of the license or permit and does NOT claim residency for hunting, fishing or trapping in any other state or country.

A Utah resident license or permit is invalid if a resident license for hunting, fishing or trapping is purchased in any other state or country.

An individual DOES NOT qualify as a resident if he or she is an absentee landowner paying property tax on land in Utah.

**Sinkbox** means any type of low floating device, having a depression, affording the hunter a means of concealment beneath the surface of the water.

**Spoiled** means impairment of the flesh of wildlife which renders it unfit for human consumption.

**Tag** means a card, label or other identification device used for attachment to the carcass of any protected wildlife.

**Take** means to hunt, pursue, harass, catch, capture, angle, seine, trap or kill any protected wildlife or to attempt any of these actions.

**Transport** means to ship, export, import or receive or deliver for shipment.

**Waste** means to abandon protected wildlife or to allow protected wildlife to spoil or to be used in a manner not normally associated with its beneficial use.

**Waterfowl** means ducks, including mergansers, geese, brant and swans.

**Waterfowl blind** means any manufactured place of concealment, including boats, rafts, tents, excavated pits, or similar structure, which has been designed to partially or completely conceal a person while hunting waterfowl.

## Utah Wildlife in Need

### Help protect Utah wildlife

Protecting and preserving Utah's threatened wildlife is up to each of us, and together we can make a difference. Please join Utah Wildlife In Need as we work together to help ensure Utah's wildlife treasures are part of the legacy we leave for our children and grandchildren.
